Summary

Software Engineer with 4+ years of experience in web development & IS support. Exposure in SWIFT integration with core banking & application performance optimization.

Skills

Languages: Python, PHP, Java, HTML, CSS, TypeScript, SQL

Frameworks & Tools: Pandas, NumPy, Django, Flask, React.js, Git

Other: AIX, Temenos T-24, Graphics Design (Adobe Illustrator)

Experience

Technical Application Support

Dec 2022 – Present

Commercial Bank of Ethiopia | Addis Ababa, Ethiopia

- Supported and maintained mission-critical banking applications, ensuring 99.9% system uptime and seamless service delivery across multiple branches.
- Participated in SWIFT integration projects with the core banking T24 system enhancing international transaction reliability and speed.
- Resolved technical issues under tight SLAs, improving customer satisfaction & internal efficiency.
- Utilized AIX systems and scripting to automate monitoring tasks, reducing manual workload by more than half.

Skills Applied: Temenos T24, AIX, SWIFT, Systems Support, Cross-functional Communication

Junior Software Developer

Oct 2021 – Dec 2022

Dan Energy | Addis Ababa, Ethiopia

- Developed and maintained web-based internal tools using Django and React.js, streamlining employee workflows and reducing paper-based processes.
- Implemented RESTful APIs to integrate data from third-party platforms into internal systems, enhancing data visibility and decision-making.
- Participated in full software development lifecycle, from requirements gathering to deployment and testing.
- Worked in Agile sprints and used Git for version control, ensuring reliable code collaboration and continuous delivery.

Skills Applied: Python, Django, React.js, REST APIs, Git, Agile Methodology, UI/UX Collaboration

Mihret Ashenafi

Software Engineer & Information Systems

Technical Support Specialist

Mar 2021 – Oct 2021

App Nove | Addis Ababa, Ethiopia

- Provided Tier 1 and Tier 2 technical support for web and mobile applications, resolving most of support tickets within SLA timeframes.
- Identified recurring technical issues and coordinated with developers to implement long-term solutions.
- Created user guides and documentation for internal use, improving onboarding time for new users.
- Built trust with clients through professional communication and issue ownership, contributing to a significant increase in customer retention.

Skills Applied: Client Support, Issue Resolution, Communication, Documentation, Web Technologies

Education

Master of Science in Software Engineering

2024 – Ongoing

Addis Ababa University

- **Relevant Coursework:** Advanced Software Architecture, Distributed Systems, Secure Software Design, Agile Project Management

Bachelor of Science in Computer Science

2015 – 2020

Hawassa University

- **Relevant Coursework:** Data Structures & Algorithms, Database Systems, Operating Systems, Computer Networks, Software Engineering, Human-Computer Interaction
- **Thesis:** Smart Health Monitoring System (Android)
